

BMP 201R SWPPP Administrator/**Preparer** Recertification

October 19, 2018 – Bozeman, MT

****A New Training Requirement** for SWPPP Preparers becomes effective January 1, 2019. If you are already certified as a SWPPP Administrator, this class will also provide the certification for SWPPP Preparer**

This is the Recertification training course for individuals who have already attained the SWPPP Administrator Certification. The original certification and the recertification remains current for three years. You will need to provide your original

This intermediate level course will cover the following topics:

- ✓ Review of the Montana regulatory requirements for storm water management during construction
- ✓ Clarification of key sections in the permit
- ✓ Use of the SWPPP to manage pollutant sources on a Permitted site
- ✓ Evaluating criteria and conditions for the proper selection of BMPs for pollution prevention
- ✓ Identifying and describing common storm water management issues requiring corrective actions

BMP 201R: SWPPP Administrator/Preparer Recertification

This one-day recertification class is designed for individuals working in or with the construction industry that are required to manage storm water during construction activities. This class is designed to update current SWPPP Administrators on changing paradigms and technologies relevant to storm water management on a Permitted construction site. Upon completion of this class, you will also have the **SWPPP Preparer Certification**.

This class offers students the opportunity to learn about Montana DEQ's storm water program and permitting requirements in the **permit re-issued January 1, 2018**. further develop a working knowledge of BMPs, and how to properly conduct and document routine inspections.

The 8-hour class is conducted in the classroom and includes: lecture, group exercises, and discussion. The Recertification will be valid for 3-years.
